REAL ESTATE, GRUPO NEXUS, SELLS UNDERGROUND GARAGE SPACES on Avenida del Mediterráneo in Guardamar del Segura.

Underground parking spaces, on the ground floor minus one, and on the ground floor minus two.

Descent by elevator for vehicles the measurements of the elevator are 4.60 x 2.40 = 11.50m2, it is very important to have these measurements, very present, because there are vehicles that do not fit in length.

Acquiring a parking space is very important in this area, especially in high season,

The community expenses are €200/year, and the municipal expenses of SUMA are €55/year.

Don't waste any more time looking for a place to park in high season, stop going around for a parking space and, of course, put your car in the shade during your holiday season.
